PROJECTS

GreenTeamHV, Responsive, Single-Page Real Estate Search Engine/Web Application - greenteamhv.com

- Designed and developed a full-stack web application with custom PHP MVC framework
- Created a Google Calendar/Contact Syncing System for SugarCRM in PHP
- Designed a complete modern user interface complete with custom client-side routing in JavaScript

Commit Guru, a commit analyzing system, a research project with Dr. Emad Shihab - commit.guru

- Created a Node.js web application (Sails.js/Socket.io/Angular.js) that displays bug-inducing commits

CSH "ScheduleMaker" Redesign - schedule.csh.rit.edu

- Redesigned the frontend of a popular RIT schedule creation tool with Angular.js, Bootstrap, and more.

Bryx 911 Web, a control panel and analytics viewer for the suite of Bryx 911 apps - bryx.com

- Wrote a Google Maps data visualizer, user management system, live-updating web application for first responders and dispatchers so that they can view and respond to 911 alerts as they happen.

EXPERIENCE

Bryx, Inc. | Rochester, NY

April 2014 – Present

- Completely re-wrote and re-designed bryx.com in Angular.js, Bootstrap; collaboration on API design

The Green Team Home Selling System | Warwick, NY

February 2011 – Present

- Created GreenTeamHV.com (see above), managed a small team with project management tools, conducted phone/video interviews, launched and deployed site to 1000's, and is currently maintained.

Blue Buckle Marketing | Chester, NY

April – July 2011

- Contracted to create public-facing websites for local companies including some SEO/marketing work.

Onion House Productions (self-owned freelance business) | Florida, NY

2008 – 2010

- Produced various websites, contacted and negotiated with clients, deployed and maintained sites.

ACTIVITIES

- Eagle Scout and Assistant Scoutmaster.
- Computer Science House member at RIT.
- Electronics Team Lead in H.S. for a solar-powered autoclave for Lemelson-MIT Fnd.
- Independent Study with Prof. Shihab freshman year working on mining software repositories and a web service to display levels of bug-introducing commits.
